About us

Professionalism you can rely on

At MMP Construction, professionalism is our foundation. From site visit to project handover, we deliver clear communication, precision workmanship, and a seamless, stress-free experience.

**“He who works with his hands is a labourer.
He who works with his hands and his head is a craftsman.
He who works with his hands and his head, and his heart is
an artist.”**

- Saint Francis of Assisi

Our mission

Mc Millan and Pereira Construction (t/a MMP Construction) focus all attention on giving the client a product with a principle of “right first time”. Mc Millan and Pereira Construction believes in building a strong skill set in all individuals within our teams. This creates an ethos contrary to the saying “many hands make light work” but rather keeping our teams small with dedicated individuals thus delivering a quality solution at an efficient price.

As we are aware that building strong skill sets takes time and energy, Mc Millan and Pereira Construction dedicates itself to internal skills development programs such as training systems and mentorships to pass on experience from generation to generation of staff.

Technical contractor

MMP Construction markets itself as a technical contractor as we do not only focus on just new civils works but also technical problems and structural repair.

Using sound engineering knowledge and a large network of specialized product suppliers, Mc Millan and Pereira Construction offers a turnkey solution to technical structural problems.

Our services

Delivering precision with every project

At MMP Construction, our reputation is built on delivering hands-on, technically driven solutions—from civil engineering and structural repairs to coatings, waterproofing, and more. Whether you're facing an urgent repair or a bespoke build, you can count on skilled teams, clear communication, and the “right-first-time” promise.

Civil engineering

Precision-driven civil engineering solutions

At MMP Construction, civil engineering goes beyond breaking ground—it's about thoughtful, hands-on execution that marries strategy with skilled delivery.

With years of industry experience, our approach is grounded in careful planning, technical precision, and a deep understanding of the demands of concrete civils work.

Hands-on, expert-driven methodology

We don't just plan—we execute. Understanding the practical realities on-site is essential to delivering durable, efficient outcomes.

Technical contractor for complex challenges

From new civil infrastructure to intricate structural repair scenarios, we leverage engineering expertise and trusted supplier networks to deliver turnkey solutions.

Specialised problem-solvers

Whether it's carbon-fiber reinforcement or epoxy structural patching, our technical know-how ensures we tackle the issues others avoid.

"Right-first-time" philosophy

Grounded in internal training and mentorship, our compact, dedicated teams bring precision and excellence to every phase of work—from concept to completion.

Concrete structural repair

Expert repairs for lasting durability

At MMP Construction, concrete repair is more than just patching cracks—it's about restoring structural integrity and extending the lifespan of vital infrastructure.

With proven expertise in specialised applications, we deliver solutions that address the root cause, ensuring performance and durability where it matters most.

Hands-on, expert-driven methodology

Our teams apply advanced repair systems including cementitious, epoxy, and carbon-fiber strengthening, ensuring each solution is tailored to site-specific challenges.

Technical contractor for complex challenges

From high-rise slabs to industrial structures, we undertake intricate repairs that demand both engineering insight and skilled execution.

Specialised problem-solvers

Whether it's spalling concrete, structural cracks, or load-bearing repairs, we deliver outcomes that others shy away from.

"Right-first-time" philosophy

Our disciplined approach and internal training mean every repair is completed with precision and long-term performance in mind.

Bridges & bridge jacking

Expertise in jacking and structural realignment

MMP Construction is one of the few contractors equipped to safely reposition, repair, and strengthen bridges across South Africa.

We combine engineering knowledge with practical expertise to ensure the safe handling of high-load structures.

Hands-on, expert-driven methodology

Skilled crews perform complex lifting and jacking operations with accuracy and safety at the forefront.

Specialised problem-solvers

Our techniques mitigate risk and minimise downtime, delivering results that safeguard infrastructure and public use.

Technical contractor for complex challenges

From structural stabilisation to realignment, we address the unique demands of bridge projects under live traffic or restricted timelines.

"Right-first-time" philosophy

Every movement and repair is planned, tested, and executed with uncompromising precision.

Building restoration

Restoring value, function, and integrity

Restoring a building takes precision, skill, and care.

At MMP Construction, we revive aging structures with respect for their original character, blending technical expertise with attention to detail to ensure lasting quality and integrity.

Hands-on, expert-driven methodology

Our crews repair, restore, and refurbish buildings with a balance of structural know-how and finishing expertise.

Specialised problem-solvers

From façade repairs to structural reinforcement, we handle the details that others overlook.

Technical contractor for complex challenges

Whether dealing with historical sites or commercial buildings, we adapt solutions to preserve value and functionality.

"Right-first-time" philosophy

Every restoration project reflects our commitment to long-lasting, quality craftsmanship.

Technical demolition & breaking

Controlled breaking for complex structures

Demolition goes beyond simply taking structures down. It demands accuracy, planning, and the highest safety standards.

At MMP Construction, we ensure every removal is controlled, precise, and mindful of the surrounding environment and structures.

Hands-on, expert-driven methodology

Our demolition methods are controlled, minimising disruption and ensuring structural safety.

Specialised problem-solvers

We excel in environments where surgical precision is required, avoiding damage to adjacent structures.

Technical contractor for complex challenges

From lift shaft cutouts to partial slab removal, we manage high-risk, technical break-outs with care.

"Right-first-time" philosophy

Our detail-oriented approach ensures work is completed cleanly, efficiently, and safely.

Rapid response & emergency work

Immediate action, reliable solutions

When unexpected challenges strike, MMP Construction responds without delay. Our teams are prepared to act swiftly, ensuring critical issues are stabilised.

With proven methods and reliable expertise, we deliver practical solutions that restore safety and confidence.

Hands-on, expert-driven methodology

Our trained teams respond immediately, stabilising structures and safeguarding people and assets.

Specialised problem-solvers

We excel in emergency situations that demand quick thinking and fast, effective execution.

Technical contractor for complex challenges

From storm damage to urgent repairs in critical facilities, we restore safety under tight timeframes.

"Right-first-time" philosophy

Even in high-pressure scenarios, we deliver quality work that holds up long after the crisis.

Coatings & anti-corrosion coatings

Advanced coating systems, applied with precision

Protective coatings extend the life of infrastructure and prevent costly damage. MMP Construction applies high-performance systems tailored to each project.

Hands-on, expert-driven methodology

Our team prepares, applies, and inspects coating systems with precision and technical care.

Specialised problem-solvers

We select and apply systems that meet unique environmental and performance demands.

Technical contractor for complex challenges

From industrial facilities to coastal infrastructure, we deliver specialised anti-corrosion protection.

"Right-first-time" philosophy

Coatings are applied to specification and quality-checked to guarantee long-term durability.

Flooring & coatings

High-performance surfaces built to last

Flooring solutions need to deliver durability, safety, and a professional finish. Each surface should perform under pressure while maintaining its visual appeal.

At MMP Construction, we provide flooring systems designed to last. Our installations and coatings create robust, practical floors that combine strength with functionality for any environment.

Hands-on, expert-driven methodology

From preparation to final finish, we ensure each floor is installed correctly and to specification.

Specialised problem-solvers

Whether epoxy coatings or specialist surfaces, we deliver flooring that meets both design and performance needs.

Technical contractor for complex challenges

We provide systems for commercial, industrial, and specialised environments requiring heavy-duty durability.

"Right-first-time" philosophy

Every flooring project is carried out with accuracy and attention to long-term performance.

Waterproofing

Reliable waterproofing, built to last

Protecting buildings from long-term water damage is critical to their durability and safety. Without proper protection, structures are vulnerable to costly deterioration.

MMP Construction delivers reliable waterproofing solutions designed to withstand the toughest conditions. Our tested methods ensure lasting resilience, giving you confidence that your structures remain secure against the elements.

Hands-on, expert-driven methodology

Our teams apply waterproofing systems with strict adherence to quality and performance standards.

Specialised problem-solvers

Whether it's crystalline, liquid, or torch-on systems, we deliver reliable waterproofing for every scenario.

Technical contractor for complex challenges

From basements to roofs, we tackle challenging waterproofing environments with proven expertise.

"Right-first-time" philosophy

Correct preparation and skilled application guarantee results that stand the test of time.

Approved applicators

Certified execution. Consistent quality.

At MMP Construction, Applicator Approved means more than certification, it's a promise. Our teams are rigorously trained and endorsed by leading material manufacturers to apply coatings, sealants, and specialty systems with precision and reliability. With us, you get the confidence that every application meets the highest technical standards and ensures long-lasting performance.
